COMPANY INTRODUCTION

Founded in 2014, Melors Marine Deck is a professional manufacturer of PE/EVA marine flooring solutions.

We offer high-density EVA blank sheets, custom CNC-cut flooring, deck pads, and traction pads in over 30 colors. Our materials feature 160–180 kg/m³ density, 60–65 Shore C hardness, and over 3,000 hours of tested UV resistance.

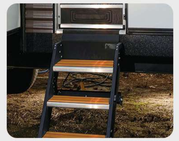

With ISO 9001-certified quality management, BSCI-audited factory, official 3M authorization, and professional CNC support, Melors helps marine businesses grow worldwide.

WHY CHOOSE US

Premium Durable Materials

Melors use high-density foam (160-180 kg/m³, 60-65 Shore C) with over 3000 hours of UV resistance.

Quality Assurance & 3M Authorization

- ISO9001 Certified
- BSCI Audited
- Authorized Distributor of 3M China

Our certified quality management system, BSCI-audited factory, and official 3M authorization ensure consistent manufacturing standards .

Assist Your Business

We provide complete sample kits, including EVA sheets for CNC engraving tests and color swatches to help customers select their preferred colors.

Design & Cutting Services with Fast Delivery

More than 30 color options, custom patterns, and a factory lead time of 3–5 days.

International Boat Shows

Melors exhibits annually at CIBS Shanghai, the Dubai International Boat Show, and METS TRADE, connecting face-to-face with marine industry professionals and partners worldwide.

Industrial Vacuum System

To protect environment, Melors invested in a new industrial vacuum system to efficiently manage dust during production.

THE MARINE FLOORING PROCESS

Step 1

IF YOU HAVE DESIGN FILE

Please send your design file, and we'll produce the boat flooring accordingly.

Step 2

SeaRay - 220 Sundeck - 2006Year

IF YOU DO NOT HAVE

Please provide your boat's brand and year, and we'll check for a template.

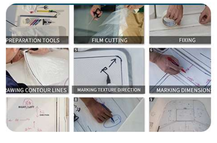

Step 3

TEMPLATE FOR YOU

We suggest scanning your boat to get the DXF/DWG file. Send it to us, and we'll start production.

Step 4

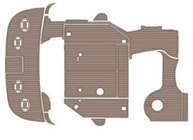

MAKE A PAPER TEMPLATE

If you can't find help, we suggest making a paper template (photomodeler pictures) and sending it to us.

Step 5

BEFORE PRODUCTION

We'll design, confirm details with you, and send a proof before production.

Step 6

PRODUCTION & DELIVERY

Once approved, we begin production and provide photos/videos before shipment. The finished mats arrive with 3M adhesive backing and installation guidance.

IF YOU OWN A CNC MACHINE

START YOUR MARINE FLOORING BUSINESS

Combine your equipment with Melors EVA materials and technical support.

1.EQUIPMENT YOU NEED

CNC MACHINE&CNC BIT

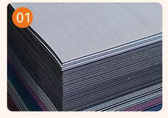

Use a CNC machine and a specialized CNC bit for cutting EVA boat flooring.

SCANNING OR PHOTOMODELER

Use Prodim or PhotoModeler to measure boat decks accurately and create files for CNC production.

2.MELORS PROVIDES

PREMIUM EVA BLANK SHEETS

High-density marine-grade EVA with 3,000-hour UV testing and genuine 3M adhesive, engineered for precise CNC cutting and engraving.

TECHNICAL GUIDANCE

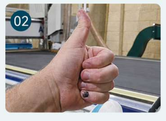

We provide recommended RPM, feedspeed, cutting depth, and sample-test support.

3.BUILD YOUR BUSINESS

BUILD YOUR LOCAL BUSINESS

With Melors EVA sheets, CNC support, and sample kits, you can present color options, produce custom flooring, and start taking local orders.

EXPAND YOUR LOCAL BUSINESS

Grow your local customer base with consistent EVA quality, reliable supply, and ongoing Melors support.

IF YOU DONT HAVE CNC MACHINE

NO CNC MACHINE? CHOOSE YOUR SOLUTION

FOR BOAT OWNERS

DIY BOAT REFIT

Purchase standard grooved EVA sheets, trim them to fit, and renew your own boat. 3M back adhesive makes installation easier.

FOR RETAILERS

STANDARD SHEET RESALE

Stock ready-grooved EVA sheets in popular colors and resell them locally or through your online store.

FOR MARINE BUSINESSES

CUSTOM PROJECT SERVICE

Scan boats locally and send to melors the measurement or CAD files. We handle the design, CNC production, QC, and shipping.
